

International Symposium on Rapid Evolutionary Change of Invertebrates, Plants, and their Interactions under Ecological Disturbance

March 10 (Sun), 2019, 13:00~
Fusuma Hall, Faculty of Science,
Yamagata University
(Kojirakawa 1-4-12, Yamagata, Japan)

Dr. Daryono
(Gadjah Mada Univ.)

Dr. Fujiyama
(Yamagata Univ.)

Dr. Kahono
(LIPI)

Dr. Rustiami
(LIPI)

Dr. Yokoyama
(Yamagata Univ.)

Invited Speakers:

Budi Setiadi Daryono (Gadjah Mada University, INDONESIA)

“The Dynamics and Evolution of Plant Viruses in Indonesia Influenced by Climate Change”

Naoyuki Fujiyama (Yamagata University, JAPAN)

““Phenotyping” of Host-Use Ability as the Critical Step in Studies on Population Divergence in Herbivorous Insects via Adaptation”

Sih Kahono (Indonesian Institute of Sciences, INDONESIA)

“Rapid Responses by Herbivorous Ladybird Beetles to the Invasion of Novel Host Plants to Java, Indonesia”

Himmah Rustiami (Indonesian Institute of Sciences, INDONESIA)

“The Past, Present and Future of Herbarium Bogoriensis”

Jun Yokoyama (Yamagata University, JAPAN)

“Two Tales of Plant Evolution in Changing Environment”

Supported by YU-COE(C) “Rapid Evolutionary Change of Invertebrates, Plants, and their Interactions under Ecological Disturbance”

Poster presentations of related topics will be held.

Contact: Jun Yokoyama (jyokoyam@sci.kj.yamagata-u.ac.jp)
